

Subject of the MsC Dissertation:

Controlled Audio Valve Amplifier

Team:

Student: Tiago José da Silva Campos

Supervisor: Vítor Manuel Grade Tavares

Co-supervisor: Ricardo Ivo Rainha Dias Faro de Carvalho

Accomplishments:

- The power supply unit printed circuit board was produced and assembled and with it the first tests with it started;
- Some minor modifications were made to the PCB of the prototype because of some layout problems;
- The first tests to the amplifier started started;
- A meeting took place in May, the 11th in order to discuss the first results of the implementation;
- The user interface development started in the development board.
