**III ECCOMAS
THEMATIC CONFERENCE
ON COMPUTATIONAL VISION
AND MEDICAL
IMAGE PROCESSING**

**REAL MARINA HOTEL & SPA, OLHÃO
ALGARVE, PORTUGAL**

WWW.FE.UP.PT/VIPIIMAGE

AIMS AND SCOPE

Computational methodologies of signal processing and analyses, namely considering 2D, 3D and 4D images, are commonly used in different application of the human society. For instances, full automatic or semi-automatic Computational Vision systems have been increasing used for surveillance tasks, traffic analysis, recognition process, inspection purposes, human-machine interfaces, 3D vision and deformation analysis.

One of the main characteristics of the Computational Vision domain is its inter-multidisciplinarity. In fact, in this domain are usually used methodologies of several more basic sciences, such as Informatics, Mathematics, Statistics, Psychology, Mechanics and Physics. Besides this inter-multidisciplinary characteristic, one of the main reasons that contributes for the continually effort done in this domain of the human knowledge is the number of applications that exists in the medical area. For instance, it is possible to consider the use of statistical or physical procedures on medical images in order to model the represented structures. This modeling can have different goals, for example: shape reconstruction, organs segmentation in images, images registration, behavior simulation, motion and deformation analysis, virtual reality, computer-assisted therapy or tissue characterization. The main objective of these ECCOMAS Thematic Conferences on Computational Vision and Medical Image Processing is to promote a comprehensive forum for discussion on the recent advances in the related fields trying to identify widespread areas of potential collaboration between researchers of different sciences.

CONFERENCE TOPICS

- Image Processing and Analysis
- Tracking and Analyze Objects in Images
- Segmentation of Objects in Images
- 3D Vision
- Signal Processing
- Data Interpolation, Registration, Acquisition and Compression
- Objects Simulation
- Virtual Reality
- 3D Vision
- Software Development for Image Processing and Analysis
- Computer Aided Diagnosis, Surgery, Therapy, and Treatment
- Computational Bioimaging and Visualization
- Telemedicine Systems and their Applications

INVITED LECTURES

Armando J. Pinho - University of Aveiro, Portugal

"Finite-context models for image compression"

Irene M. Gamba - The University of Texas at Austin, USA

"Deterministic vs DSMC solvers for Boltzmann-Poisson dynamics of charged transport in nano structures"

Marc Pollefeys - ETH Zurich, Switzerland

"3D from Video for Static and Dynamic Scenes"

Marc Thiriet - Universite Pierre et Marie Curie (Paris VI), France

"Thoracic image processing for nanoparticle delivery"

Xavier Roca Marvà - Autonomous University of Barcelona, Spain

"Towards Human-Sequence Evaluation"

Stan Sclaroff - Boston University, USA

"Embedding Methods for Image and Video Retrieval"

REGISTRATION

	EARLY	LATE
IACM/ECCOMAS Members	400€	475€
Non-IACM/ECCOMAS Members	450€	525€
Students	250€	300€
Accompanying Persons	150€	200€
Book of Proceedings	100€	125€

THE FEES COVER:

- Book of proceedings (except for students registration)
- Participation in all the scientific sessions
- Coffee breaks
- Lunch on the Conference days
- Welcome reception
- Conference Banquet
- For Accompanying Persons: webcom reception and conference banquet

NOTES:

- Early registration fee must be received until 31st May 2011
- Each accepted paper should have, at least, one non-student registration

SCIENTIFIC COMMITTEE

• **Adelino F. Leite-Moreira** University of Porto, Portugal

• **Ahmed El-Rafei** Friedrich-Alexander University Erlangen-Nuremberg, Germany

• **Ahmed Fadiel** New York University Medical Centre, USA

• **Alberto De Santis** Università degli Studi di Roma "La Sapienza", Italy

• **Alejandro F. Frangi** Universitat Pompeu Fabra, Spain

• **Alexandre Cunha** California Institute of Technology, USA

PROCEEDINGS

Extended abstracts (for submission): 2 to 4 (recommended) A4 pages must be considered.

The abstract must provide authors' names and affiliation, and should also include a title and keywords.

All extend abstracts submitted will be subjected to a review process by three members of the conference scientific committee.

The proceedings book will be published by the Taylor & Francis Group. Additionally, the organizers will encourage the submission of extended versions of the accepted papers to related International Journals; namely, for special issues dedicated to the conference.

Two possibilities are the International Journal for Computational Vision and Biomechanics and the International Journal of Imaging. Furthermore, a book with 20 invited works from the most important ones presented in VipIMAGE2011 will be published by Springer.

THEMATIC SESSIONS

Experts on related conference topics are invited to submit proposals for thematic sessions.

The organizers of the selected thematic sessions will be included in the conference scientific committee and will have a reduced registration fee. They will be responsible for the dissemination of their thematic session, may invite expertise researchers to have invited keynotes during their session and will participate in the review process of the submitted contributions.

IMPORTANT DATES

Deadline for Thematic Sessions proposals: **15th January 2011**

Thematic Sessions notification: **31th January 2011**

Deadline for Extended Abstracts: **15th March 2011**

Authors Notification: **15th April 2011**

Deadline for Lectures and Papers: **15th June 2011**

ACCOMODATION

The organizers have arranged special conditions and rates at REAL MARINA HOTEL & SPA for the conference participants.

Service	Single Room	Double Room	Remark
Accommodation in single room (buffet breakfast and taxes included)	88€	98€	Free internet in the rooms

Additional, near the REAL MARINA HOTEL & SPA, other accommodation facilities are available.

AWARDS

"best paper award" and **"best student paper award"** are going to be given to the author(s) of two papers presented at the conference, selected by the Organizing Committee based on the best combined marks from the Scientific Committee and Session Chairs.
