Under the auspices of
7th International Conference on
MECHANICS AND MATERIALS IN DESIGN
ALBUFEIRA/ALGARVE, PORTUGAL
June 11-15, 2017
(http://paginas.fe.up.pt/clme/M2D2017/)

The rehabilitation of oral and maxilofacial structures involves a deep knowledge of materials and its physical and mechanical properties, in order to ensure patients the best possible treatment. It is in this area of knowledge that mechanics and materials may represent a big contribution to the evolution of oral and maxilofacial rehabilitations and, ultimately, to an improvement of clinical procedures in patients.

This symposium will welcome papers in several areas related to oral and maxilofacial structures (eg. dentistry and oral/maxillofacial surgery), where there is an important contribution of materials and mechanical techniques:

- Prosthodontics
- Implantology
- Dental Materials
- Dental Biomechanics
- Orthodontics
- Dental and Cranio-Maxillofacial Trauma
- Head and Neck Reconstructions
- Maxillofacial Regeneration
