SUBMISSIONS & PUBLISHING

SEAA 2015 encourages the submission of full and short research papers and experience reports. Full research papers must contain original unpublished work, describe significant novel contributions, and provide evidence on the validation of results. In particular, reports on industrial applications are welcome.

CPS, Conference Publishing Services, publishes the SEAA Proceedings (submitted for ISI indexing), submitted to the IEEE Xplore Digital Library.

The SEAA conference will also provide **best papers awards**.

Authors of best papers will be invited to revise and re-submit an extended version of the papers for publication in the Special Section on "Advanced Applications in IT" in the **Springer Software Quality Journal**.

All information about the various calls can be found at
