

Weekly Report

Automatic blood typing scanner through agglutination

MSc Student	Supervisor
Nuno Miguel Duarte Costa	Prof. Rosaldo Rossetti
Co-Supervisor	
Prof. Joaquim Gabriel Magalhes Mendes	

February 28, 2014

Week Start:	February 24, 2014
Week End:	February 28, 2014

1 Work Developed

- State of the art revision on classification algorithms:
 - K-Nearest Neighbour;
 - Decision Trees;
 - Naive Bayesian Classification;
 - Artificial Neural Networks.
- Web site development:
 - Base template deLighted by ThemeShift;
 - Template modifications to fit project needs.

2 Future Work

- Configuration of project libraries:
 - JavaFX;
 - OpenCV.
