

Quality Assessment in Iris Recognition for Mobile Applications – Progress Report

May 16, 2014

WEEK:

12-05-2014 to 16-05-2014

MEETINGS:

With the co-supervisor, on Tuesday.

ACCOMPLISHMENTS:

The feature extraction for the iris databases started.

A summary of the search of fingerprint liveness detection method was discussed with the co-supervisor and since it is possible to use the same methods that we planned to use in this type of trait we decided to move forward with the idea of joining fingerprint liveness detection to this work.

PROBLEMS:

None.
