

Quality Assessment in Iris Recognition for Mobile Applications – Progress Report

April 25, 2014

WEEK:

21-04-2014 to 25-04-2014

MEETINGS:

With the co-supervisor, on Tuesday.

ACCOMPLISHMENTS:

None of the tests referred in the last report were able to lower the error rate to an acceptable range.

The second method is also completed and we will now extract features from it.

PROBLEMS:

We still don't know how to fix the high error rate problem.
