# Meeting Minutes

**Record_10**

**Smartphone controlled Electrotherapy**

- **Date:** 04/06/2015  
  **Local:** I307  
  **Begining:** 12h00  
  **End:** 13h00

**Participants**

Diamantino Freitas, Miguel Morais

**Order of Tasks**

1. Decide delivery date of the dissertation in June or September;
2. Presentation of the work performed during last week;
3. Clarify doubts that came up during last week;
4. Goals for the next week.

**Conclusions**

1. It was decided to deliver the dissertation in September;
2. The components used in the converters have been approved;
3. Professor Diamantino provided a Howland circuit that can be the solution to the voltage to current circuit, since it manages to measure the output current.

**Upcoming Tasks**

1. Complete simulation and hardware design;
2. Find ferrite cores or potcores to build inductors;
3. Write Dissertation.

**Next Meeting**

12:00-13:00 on 11/06/2015
