

2nd EnVIE Conference

Brussels – Belgium, 16 - 17 September 2008

Policies for millions of indoor environments

6th Framework Programme 2002-2006

1. Presentation of EnVIE Proposal

- Based on health evidence
- Centred on two basic strategies
 - source control
 - exposure control (ventilation!)
- Poised to be part of an ‘holistic’ approach to the building performance trend

2. Comments

Following ± the ‘Green Paper’ method ...

...comments have been solicited from policy makers, leaders, stakeholders and all potential interested parties.

3. Wrap up...

...of a work of a Concerted Action of a marvellous group 'cemented' by a vision, lots of enthusiasm and also by some 'stress'!

...of one more interdisciplinary experienced made of ingredients needed in any interdisciplinary exercise: competence and attitude of openness, humility and service.

Thanks

- To the EC officers!
- To all partners and colleagues, in particular, if I am allowed, to Dimitri, Matti, Paolo, Paul, Olli and Stelios
- To my people
- And to all those who responded to our invitation
