

## Instructions for Submission Final Versions of Accepted Papers

### Camera ready (final) paper

Authors of accepted papers must upload the final version of their paper via the [RecPad 2011 submission site](#)

The final version of the paper should add any information removed to anonymise the paper and remove any line numbering added for the review process. Please do take into account the comments from the reviewers and meta-reviewers when preparing your paper.

Papers should be prepared according to the published specification for formatting and style. The length should not exceed 2 pages .

The final version of the manuscripts must be formatted according to the following templates:

- [MS Word template](#)
- [LaTeX template](#)

### Poster presentations

The size of a poster should be A0. There is no specific template for the posters.
