Abstract

Professionals such as administrators or entrepreneurs (Perdicoúlis, 2014d) can be screened for capability or 'fitness for purpose' (Perdicoúlis, 2014c) in complementary viewpoints (Perdicoúlis, 2014b). Responses should be provided with scientific rigour (Perdicoúlis, 2012) in appropriate means (e.g. text, lists, tables, diagrams). Shortfalls should be addressed through instruction (e.g. lectures, workshops) or coaching (Perdicoúlis, 2014e).

1 Understanding

INDUSTRY IN OBJECTIVE TERMS Do you understand how your industry works? What is involved and in which relationships? Try to explain.

UNDERSTANDING AND ITS REGISTER Can you put your understanding on a piece of paper? Demonstrate it. Is it complete and unambiguous?

CONTEXT AND CAUSALITY Can you place your situation in a wider context? Can you do this in terms of relationships, not ranking? Demonstrate it.

2 Order

PROBLEM HANDLING How do you define your problem? Do you know what to ask for and what to do? Demonstrate it.

CREATIVITY AND REASONING Are you creative, methodic, and thorough when looking for solutions? Can you display your reasoning? Demonstrate it.

EFFICIENCY/ PERFORMANCE How do you understand efficiency? What do performance indicators actually tell you? Try to explain.

3 Autonomy

RESEARCH/ PREPARATION Do you know how to research your own case? What preparation do you need for this? Try to explain.
